# Why Healy?

We understand that our customers depend on us to ensure consistently high quality. With offices located in Dublin, Leicestershire, Shanghai, and Genep we are ideally positioned to have a close control of the sourcing, quality and price of our materials.

All of our suppliers have undergone a stringent quality assessment to meet the criteria within our strict vendor approval system. We constantly monitor, review and update the approval of each supplier, ensuring that all of the latest legislation is adhered to.

Long lead times and transit problems are a potential concern with materials from distant regions, therefore we hold stock of all of the larger volume ingredients in our UK, Irish and mainland Europe warehouses, reducing these risks and providing continuity of supply. If you have any questions about the products listed in this brochure, please contact our sales team.
